

4-th Axis rotary table is a good choice for milling machine.

#10185 including 100 mm rotary table, dividing plate and tailstock.

It is suitable for KX1, KX2 and KX3.

One extra stepper driver has been installed for 4th axis pre-wired with external socket.

FEATURES

- Diameter-100 mm(4")
- Capacity-5 kg
- Maximum torque with 1.35 N/m motor-54 N/m
- Thru Hole-12 mm
- Horizontal-Yes
- Vertical-Yes
- Tailstock-including
- Vertical center height-68 mm(2.68")
- Ratio-40 to 1
- Net weight-12 kgs
- Rotational accuracy-5 seconds
- Backlash-less than 0.05 mm, and within 0.01mm after adjustment
- Repeatability-0.01 mm
- T-Slot size- mm (for KX1) & 12 mm (for KX3)
